

Water Pit Inserts

**NEW
PRODUCT**

HPC has been selling the ambiance of fire through being the leader in Fire Pit Inserts for many years with our wide range of shapes, sizes, and technologies. What better way to compliment fire than to add the elegance and soothing sound of a shear, running water. Our focus over 2 years ago was to develop a turnkey, self-contained water system that is universal, robust, and is cost effective for our dealers - thus evolved HPC's new Water Pit Insert. Finally this year we are proud to introduce the Evolution 360 Series - our first in a line of Water Pit Inserts.

The Evolution 360 can be installed on practically any patio in a residential or commercial setting - no pond or pool needed! This fully assembled, plug-n-play system comes ready to install - simply level the water pit then connect water, electric, and gas. Finally, enclose with stone, veneer, stucco, etc. to match your patio décor. Operation is even simpler - three switches control the water, LED lights, and fire pit. The Evolution 360 is made of durable, weather resistant, black polyethylene and engineered to last - no on-site guesswork. It is strong enough to allow for the option of our Water Rock to be used to line the floor of the basin

Evolution 360 Features:

- Beautiful blue LED lights to illuminate water - hidden under scupper.
- Auto fill system- automatically adds water when needed; Low level sensor protects pump if water supply issue.
- Filtration- water is conditioned with a reusable, easy-to-clean filter.
- Water pump- 3,200 gallons per hour (4,000, 4,800, 6,000gph pumps available upon request)
- Leveling / Height Setting- four heavy, 3/4" threaded feet give flexibility of height adjustment and leveling. Easily adjusted on site with ~4" of travel.
- Overflow feature allows water to escape safely.
- Electrical Connection- simply with a 5-lead, 20' cable ready to connect. Control Panel incorporates 3 push-to-reset breakers for water, LEDs & fire.
- Fire Pit Insert: CSA Certified Remote Electronic Ignition I3SS90HWI 90k Btu, 12" burner.
- Copper Bowls: Choose from a 4-scupper design or the new 360-degree model- both handmade with beautiful hammered copper..

Useful Information

BASIN DIMENSIONS

- Outside Diameter - 52"
- Height - 14"-18" Adjustable Side Wall Height
- Tower - 10" Diameter Flange to Mount Centerpiece

BASIN WEIGHT

- Copper Fire Bowl: Dry-140lbs;Wet - 532lbs
- Copper Planter Bowl: Dry - 117lbs;Wet - 492lbs
- Water Basin Only: Dry - 82lbs;Wet - 460lbs
- Additional Load - Basin Floor - 400lbs max;Tower Load - 100lbs max

WATER

- Softened Tap Water Only - Minor Conditioning Needed
- Capacity - Unit Holds 50 Gallons (Less w/Water Rock)
- Water Pump - 3,200gph Standard (Higher Rates Available)

POWER

- 120VAC; 3 External Switches Required

Water Rock

Use these beautiful water rocks to add a touch of elegance to your Evolution 360. Simply line the basin floor with rock. 2-4" in size and available in polished black, tan, and red; and unpolished gray. Three bags required for basin.

Water Rock - 3 Bags Required			
Model #	Rock Color	Size	Weight/Bag

Complete Fire Pit Packages

Unfinished Enclosures

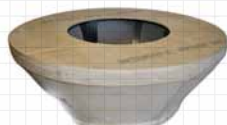

HPC offers complete fire pit packages that include unfinished enclosures fitted with a CSA Certified remote electronic ignition fire pit insert. CSA Certified match lit models are also available.

These units are unfinished to allow for the customer to finish with stone, veneer, or stucco to match their surrounding. Shapes available in round, octagon, square, and linear. The housings take the guess work out of enclosure construction— especially with the difficult round and octagon shapes. These are 18" tall and are constructed of sturdy 22 gauge galvanized steel material, welded frame, a 1/2" Hardiboard shell, and weighs 150lbs. Enclosure shipped separate from fire pit. Ships from North Carolina Warehouse.

Complete Fire Pit Packages Copper Bowl Series

This Copper Bowl Series is available in the Fire Bowl or the Fire & Water Bowl models. Both are fitted with a CSA Certified match-lit insert or remote electronic ignition fire pit insert. These come in an oil rubbed look with either a hammered finish or a smooth finish based on model.

Fire Bowls / Fire and Water Bowls

TEMPE MODELS

This round hammered copper bowl has an oil rubbed look. Dimensions are 31" diameter, 11" tall, with an 8" base. Fire pit insert has a 19" pan, 12" fire ring. Match lit models require mounting of decorative gas valve in column or table. The remote electronic ignition model control box is in the column supporting the bowl.

HAMMERED

SMOOTH

SEDONA MODELS

This square hammered copper bowl has an oil rubbed look. Dimensions are 40"x 40", 16" tall, with a 20"x 20" base. Fire pit insert has a 25" pan, 18" fire ring.

SIERRA MODELS

This square smooth copper bowl has an oil rubbed look. Dimensions are 36"x 36", 16" tall, with a 18"x 18" base. Fire pit insert has a 19" pan, 12" fire ring.

MESA MODELS

This round hammered copper bowl has an oil rubbed look. Dimensions are 32", Dia 15" tall, with a 15" base. Fire pit insert has a 18" flat pan, 12" fire ring.

Fire Pit Inserts – Remote Electronic Ignition

These are the top of the line, heavy duty, stainless steel fire pits controlled remotely via wall switch or remote.

Our Electronic Ignition fire pits are the only fire pit in U.S. & Canada certified up to 400k Btu.

HWI SERIES

- Comes fully assembled, ready to drop in.
- Flame safety - automatically relights flame if blown out.
- Requires wall switch, remote, or timer to operate - Sold Separately
- Remote control start up - utilizes our hot wire ignition. No Spark!
- Constructed of #304 stainless steel pan, fire ring, and valve box.
- Hot wire ignition system—120v A/C (24v A/C available upon request).
- CSA Certified up to 400k Btu
- Includes 24" flex line, vinyl fire pit cover, and lava rock for pan.

See our drawings at HPCfire.com for more details.

Important Notes: Lava Rock: 1 box is 1 cu. ft. or 50lbs; Small Package Shipping (UPS / Fed EX)- Lava shipped separate box. Emergency Gas Shutoff: Use "HC" manual valve models- Ex. MSBB-HC . Remote Control: Use the 578-C model only.									

Fire Pit Inserts – Manual Spark, Flame Sensing

FPPK SERIES

- Perfect for fire pits without electricity and desire for flame sensing.
- Flame sensing - flame blows out, gas will turn off.
- Spark ignition - No match required.
- Complete drop-in fire pit insert utilizes a standing pilot with thermocouple to safely control gas flow, manual spark igniter (AA battery) and safety pilot valve.
- Features hard pipe with control box - access door optional.
- CSA Certified up to 140k Btu

Includes fully assembled stainless steel pan & stainless steel burner, FPPK control box with pilot assembly, and Lava Rock.
