

# RAIS Mino II

**RAIS**<sup>®</sup>  
ART OF FIRE

The new RAIS Mino II is much more than what meets the eye. Developed with our newest and most advanced combustion technology, which ensures optimal and efficient burning of firewood, the RAIS Mino II is a functional stove. Equipped with unique RAIS details, such as the air-cooled hollow handle and efficient air-wash system to keep the large glass pane door clean, the RAIS Mino II offers a magnificent view of the fire and its dancing flames. The RAIS Mino is also available as a soapstone model.

*The new RAIS Mino II is equipped with the RAIS air-supply system, which is operated with a simple and functional handle to control heat output.*
